

# THE CREATIVE INNOVATION

CHARGING SYSTEM WITH  
BATTERY STAND AND  
HYDRAULIC LIFT

## LARGE BATTERY CHARGING SYSTEM

### Specifications:

- **Model:** 48 Volts, 60 Amps
- **Power Packs:** Battery Containers for 4 sealed large 12-Volt, maintenance free, deep-cycle gel cell industrial batteries.
- **Construction:** All equipment of rugged design built for industrial applications.
- **Battery Stands:** For 2 battery containers of 4 large batteries each.
- **Hydraulic Lift:** To exchange battery containers quickly and easily.

Battery Charging Station with Hydralift designed for use with TCI EV Model BISON

- Built for heavy duty commercial service. The battery charger is versatile, rugged and easy to use.
- The charger is designed for certain TCI EV models.
- The charger keeps EV units working around the clock. TCI's EVs are equipped with 12-Volt batteries.
- Special features of the battery charger include maintenance free design, easy to read needle gauge.
- The battery charger cannot overcharge properly maintained batteries. It will switch automatically to trickle charge mode once batteries are fully charged.
