

RUNNER DIMENSIONS:

Height 45" (114cm)

Width 26" (66cm)

Length 57" (145cm)

Weight *1,100 lbs. (500kg)

* incl. on-board charger

Specifications:

- **Drive:** Transaxle with motor, permanent magnet, 24 VDC/ D48.
- **Speed Controls:** Variable electronic speed control, forward/reverse. Speed of up to 5 mph (8 km/hr).
- **Power Pack:** Four 12-Volt, sealed maintenance free, deep-cycle gel cell industrial batteries.
- **Recharging Time:** 6-7 hours to bring batteries to full charge from discharged condition.
- **Range:** 12+ hours on level ground, normal stop and go usage (depending on pulling load and trailer wheel condition).
- **Charger:** Two industrial duty chargers w/connectors and wall mounts, or on-board charger w/24V charging system.
- **Turning Radius:** 58" (148cm)

THE CREATIVE INNOVATION

RUNNER – “easy patrolling”

TCI EV's are small, powerful and highly maneuverable, powered with a clean environment in mind

RUNNER is designed for 24/7 operation with a unique front platform for versatility

- RUNNER is a unique TCI EV (Electric Vehicle) with a front platform versatility. It is designed for patrolling, hauling and other transportation possibilities. It moves personnel and materials in industrial, commercial and institutional facilities.
- With Transaxle drive and an average operator weight, RUNNER can pull a load of up to 2,200 lbs. (1000 kg).
- Short and narrow with a small turning radius RUNNER is highly maneuverable even in tight areas.
